Roughly 1000 women pass through our doors per month. The programs and safe space that we offer makes a difference to every single one.

The Life Center was established in November 2015 as a project under the umbrella of the Baptist Church in the city of Zarqa, Jordan. Our work involves improving the lives of local women and their children, including Syrian refugees and vulnerable Jordanians.

We provide opportunities for our beneficiaries by offering vocational skills, such as hairdressing and Arabic literacy, to create empowerment and self-sufficiency.

We also offer counselling and lectures to equip beneficiaries with coping mechanisms to deal with the various stresses of their unique situations, and to encourage the social integration of refugees in host communities.

We provide a safe space for women to come together to learn, grow, and share their experiences, making our work essential to the local community.

Mission

Providing a safe community for women and children. Equipping them through education, counselling, and mutual support.

Vision

Women empowered to live a physically, emotionally, and spiritually healthy life.
